Series 7550 New Construction Casement Window

Offers the perfect balance of style, convenience and energy efficiency. This well designed window incorporates numerous features that provide a graceful appearance, low maintenance durability and energy saving performance. Strong, welded vinyl construction is built to last a lifetime, and backed by our Limited Lifetime Warranty. Several glass options are available, including high performance LoE² Glass, to provide a level of energy efficiency appropriate for virtually any climate. With many styles to choose from, the Series 7550 Casement Window offers design flexibility to complement virtually any home.

Casement Window

Energy Savings: Standard 7/8" insulated glass for comfort and energy savings. With the addition of optional LoE² Glass and Argon Gas, the Series 7550 is ENERGY STAR[®] compliant in all 50 states. Dual weatherstripping provides an energy efficient, virtually weather-tight seal.

Easy Installation: Twin, triple and combination units come with a continuous head and sill, providing easier handling and installation, as well as a beautiful, finished appearance. A built-in double wall, 'J' channel type siding return allows for easy trimming of the exterior siding to the window.

Performance: Fusion-welded vinyl construction creates a strong, durable window that endures the elements. Intercept[®] Warm-Edge Spacer improves thermal performance and reduces condensation, which can naturally form on windows during temperature changes. A folding operator handle ensures smooth sash operation, while a multi-point locking system provides increased security and seals the window weather-tight.

Convenience: Vinyl will not rot, peel or corrode, making the Series 7550 a low maintenance window that never needs painting. Optional decorative grilles are available in several styles and sealed inside the glass for easy cleaning. Your choice of left hinge, right hinge or stationary sash.

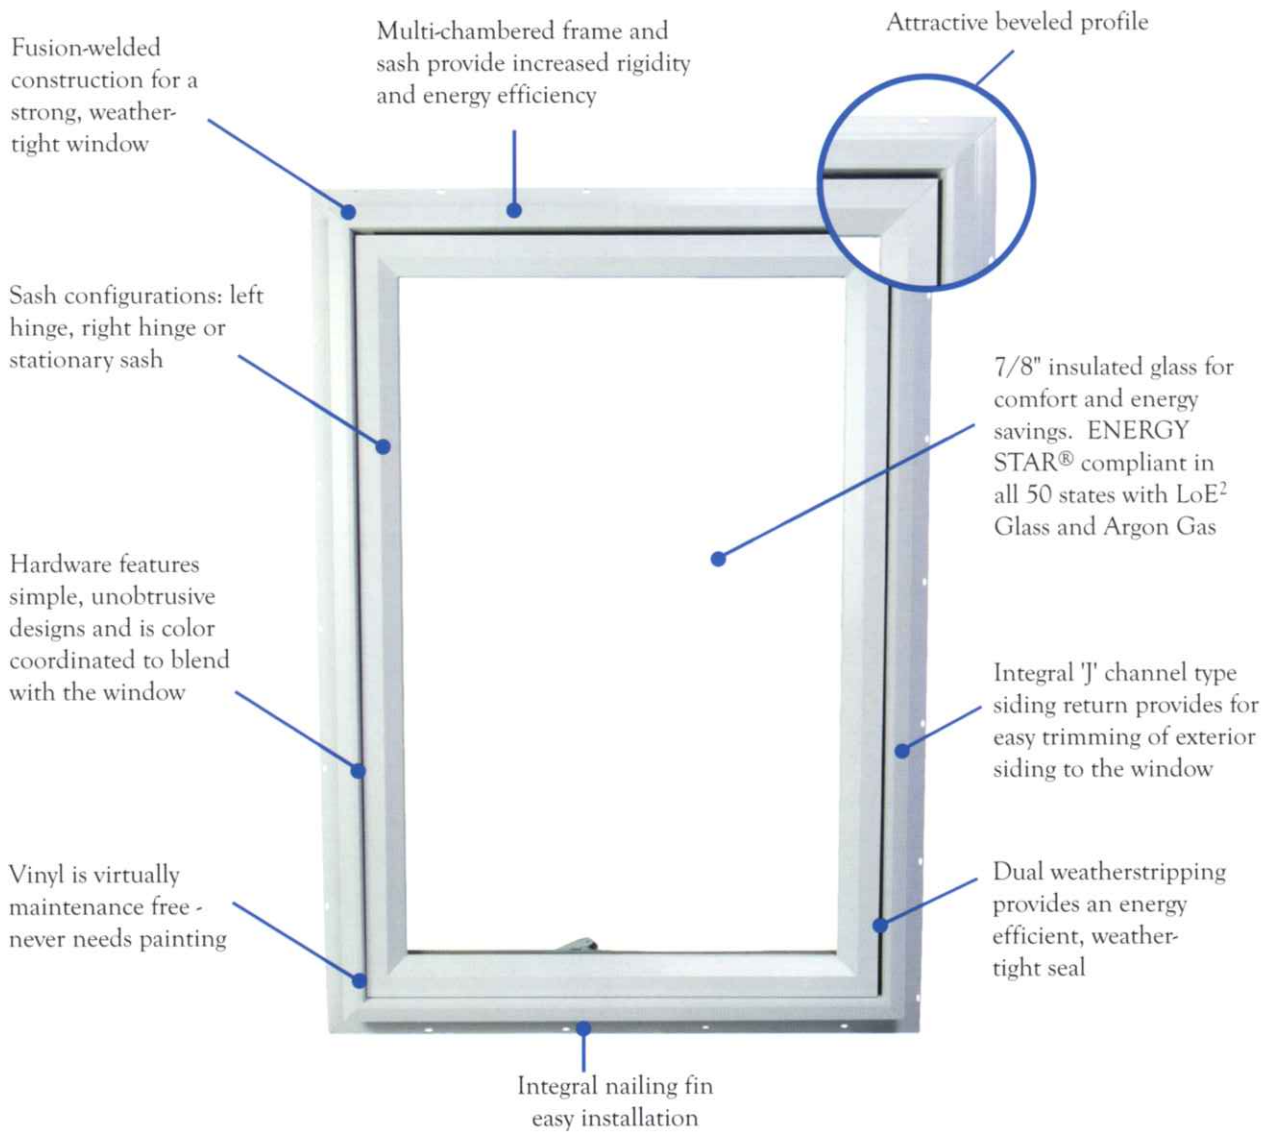

Limited Lifetime Warranty

Folding operator handle eliminates interference with shades and blinds

Series 7550 Features

The perfect balance of style, convenience and energy efficiency.

Glass Options

Silver Line® offers several types of glass for just about any requirement. From energy savings, to sound control, to privacy, one of our many choices is sure to meet your needs.

Energy Saver LoE² Glass - Reduces heating and cooling costs, while keeping your home more comfortable all year long. Also reduces fading to window treatments, furniture and floor coverings caused by harmful UV rays.

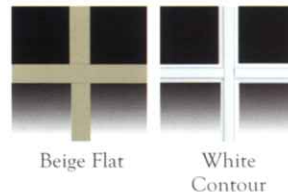

Other Glass Choices Include:

- Tempered Glass
- Tinted Glass
- Obscure Glass
- Laminated Glass
- LoE² Glass/Argon Gas

Grille Options

Maintenance Free Grilles - Grilles are sealed inside the glass unit, providing the look of muntins without the difficulty of cleaning them. Choose from two different grille types: flat or contour. Several grille patterns are available, including Colonial, Prairie and Diamond.

Colonial

Prairie

Diamond

Color Options

All Silver Line vinyl windows are available in white and beige. The color is consistent throughout the vinyl window frame and sash, making scratches virtually invisible.

Specify left or right hinging
as viewed from the outside.

Egress Sizes -
clear opening of 5.7 sq. ft. or greater.
clear opening width of 20" or greater.
clear opening height of 24" or greater.

• Unit dimension is inside frame dimension,
not including nailing fin

Window elevations are shown with optional grille patterns. Grille pattern shown is standard grille pattern for appropriate window size.

Extension Jamb

An interior access channel allows the use of three different extension jambs: 4-9/16" for 2 x 4 construction, and 6-9/16" for 2 x 6 construction. A snap-in return for drywall applications allows for fast installation and a clean, professionally finished job.

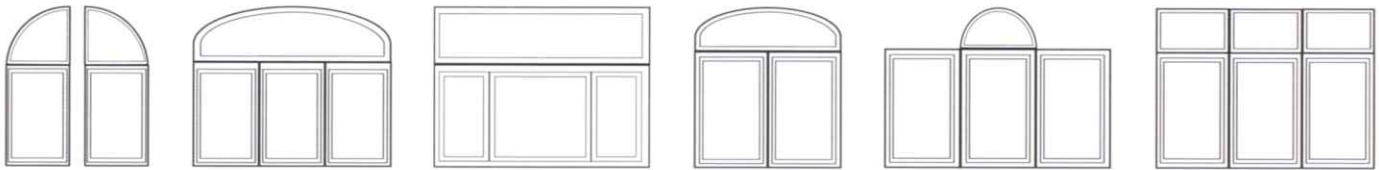

Geometric Shapes

Including geometric shapes and picture windows will enhance the other window designs in your home, while giving it a unique style, adding light from new refreshing angles, and bringing natural comfort to your surroundings.

Design Flexibility

Our complete product line of casement windows can be combined in numerous ways. With so many window styles and sizes available, the design possibilities are virtually endless. Silver Line's® mulling systems feature strong, durable mullions, allowing you to mull and stack windows in numerous configurations.

When Shopping For Windows, Look For . . .

...windows that have earned the ENERGY STAR®. These windows are deemed to be energy efficient by the US Department of Energy.

The Series 7550 Casement Window with optional LoE² Glass and Argon Gas is ENERGY STAR compliant in all 50 states.

NFRC MFG CODE: SIL Series 7550 Vinyl Casement Window 7/8" Insulated Glass	
ENERGY PERFORMANCE RATINGS	
U-Factor (H, L, S, P)	Solar Heat Gain Coefficient
0.48	0.53
ADDITIONAL PERFORMANCE RATINGS	
Visible Transmittance	Air Leakage (L, S, P)
0.55	0.1

The NFRC label provides the U-Factor and Solar Heat Gain Coefficient ratings of a window. The lower the U-Factor, the more you'll save on heating bills. A low SHGC rating will help save on cooling costs.

The Series 7550 Casement Window has been tested and certified to NFRC standards for energy efficiency.

Glass Type	U-Factor	SHGC
Clear	0.48	0.53
LoE ²	0.36	0.30
LoE ² /Argon	0.32	0.30

AAMA is a nationally recognized authority, developing voluntary standards to test and validate the structural performance of windows, doors and skylights.

The Series 7550 has been tested and certified to AAMA design pressure (DP) standards. The higher the DP rating, the stronger the window.

Window Size	DP Rating
57" x 60"	DP-40
60" x 72"	DP-30
